East Java, ID

SUMMARY

Dedicated high school student with a strong background in competitive mathematics (National Gold Medalist) and a growing focus on Artificial Intelligence and Machine Learning. Possesses strong analytical and problem-solving skills with practical programming experience in C++ and Python. Eager to leverage quantitative background to build innovative software solutions and contribute to the technology sector.

EDUCATION

- Taruna Nusantara Senior High School**
High School; GPA: 91.67/100.0 (Taruna Nusantara High School) *July 2022 – Expected 2025*

EXPERIENCE

- Google** Online
Google Cloud Arcade Participant *Jul. 2025 – Sep. 2025*
 - Participated in a gamified cloud learning program hosted by Google Cloud.
 - Completed intensive hands-on labs and real-world challenges focusing on cloud infrastructure, data engineering, and machine learning within the Google Cloud Platform (GCP) ecosystem to earn technical skill badges.
- SMA Taruna Nusantara** Magelang, Central Java, ID
Community and Environmental Care Program (LKPL) *Dec. 2024*
 - Participated in the "Latihan Kemasyarakatan Peduli Lingkungan" (LKPL) organized by SMA Taruna Nusantara.
 - Actively engaged in direct community service, environmental conservation efforts, and social initiatives to foster empathy, social awareness, and civic responsibility.
- Student Council** Magelang, Central Java, ID
Student Council (OSIS) Executive Board *Aug. 2022 – Dec. 2023*
 - Served as an executive board member of the Student Council at SMA Taruna Nusantara, a highly disciplined semi-military educational institution.
 - Managed large-scale student programs, fostered leadership initiatives, and maintained school-wide discipline and core values.
 - Led section operations, overseeing administration and guiding the organization under my responsibility.
- Sakinah Edu Center & RPM Lamongan** Lamongan, East Java, ID
Volunteer Math Olympiad Tutor *2021 – Present*
 - Provided specialized mathematics Olympiad training for students, including those with financial difficulties.
 - Designed structured lessons and guided problem-solving sessions to develop mathematical reasoning.
 - Mentored and motivated students for national competitions, dedicating over 200 hours during vacation periods.

PERSONAL PROJECTS

- Environmental Data Predictive Model**
Python, Scikit-Learn, Google Cloud Platform (GCP)
 - Built a predictive machine learning model to analyze regional environmental data and forecast air quality indices.
 - Leveraged data engineering principles to process large datasets, visualizing actionable insights to support local community conservation initiatives.

SELECTED AWARDS & HONORS

- National Math Competition (GMM) - Universitas Pendidikan Indonesia**
1st Winner *2023.11*
- Diponegoro Logic Competition (ANFORCOM) - Diponegoro University**
1st Winner *2023.09*
- National Science Olympiad (OSN) Mathematics - Junior High School**
Bronze Medalist *2021.11*

SKILLS

- **Programming & Tools:** Python, C++, VS Code, Jupyter Notebook, Google Cloud Platform, HTML5, CSS3, Java, Pandas, L^AT_EX
- **Areas of Interest:** Deep Learning, Machine Learning, Artificial Intelligence Development
- **Languages:** English (IELTS: 6.5, TOEFL: 523), Indonesian (Native)
